

# ENTROPICA FORENSIC MODEL

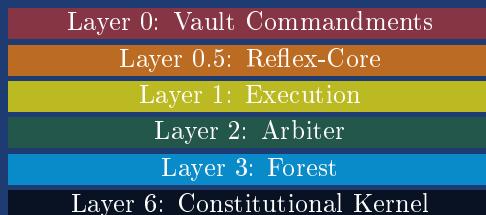

Complete Codex

Version 1.5

---

*Bounded Autonomy through Reflexive Symbolic Cognition*

A Framework for Safe, Accountable, and Evolvable AI Systems

Entropica SPC  
Yology Research Division

# EFM Codex v1.5

## Publication Package

**Document Set:** 2 Volumes + 13 Appendices

**Total Pages:** ~250

**Release Date:** December 2025

**Status:** Publication Ready

**License:** Proprietary — Entropica SPC

---

## Core Architecture

|                                 |                                   |
|---------------------------------|-----------------------------------|
| <b>Level 6 Bounded Autonomy</b> | Systems act without pre-approval  |
| <b>Reversibility Principle</b>  | Autonomy $\propto$ recoverability |
| <b>Four Commandments</b>        | Immutable safety foundations      |
| <b>Three-Speed Safety</b>       | Reflex → Arbiter → Forest         |
| <b>Evolutionary Feedback</b>    | M → K → I cycle                   |

---

*This document set specifies the complete Entropica Forensic Model (EFM), a framework for building AI systems with hardware-enforced safety, cryptographic accountability, and bounded autonomous decision-making.*
